TIPS

VOL. IX. NO. 155

PADUCAH, KENTUCKY, SATURDAY, JULY 5, 1902.

## ARE READY TO START

Officers of the New Nortonville Coal Company Have Been Elected.

Mr. F. M. Fisher is President—\$10,000 Worth of New Machinery to Be Purchased.

## NORTONVILLE ON A BOOM

The organization of the Nortonville Coal Co. has been perfected. The company has a capital stock of \$100,000, is incorporated under the laws of Delaware, has opened a nicely equipped general office at Nortonville, Ky., and also maintains an office at Dover, Del.

The officers just elected are: F. M. Fisher, president; J. B. Trice, vice president; John T. Edmonds, secretary; W. S. Elgin manager. The directors are F. M. Fisher, J. B. Trice, T. Edmonds, W. F. Paxton, W. Kennedy, W. S. Elgin and Ira Smith.

Messrs. Trice, Edmonds, Smith and Elgin are residents of Hopkinsville and Messrs. Paxton, Kennedy and Fisher of Paducah.

They have authorized their manager to sink a shaft and purchase the latest electrical mining machinery which expenditure will amount to over \$10,000. They will commence at once and push work night and day until the completion of plant which will be one of the finest in Kentucky.

The town site of Nortonville was laid out in '73 but the Messrs. Norton refused to sell any of the property.

The new company will stake off the land and have a sale of lots about 15. Many persons are making inquiries in regard to lots and some will be made at once, privately, to supply the pressing demand.

The hotel has been remodeled inside and out at an expenditure of over \$1,000 and is doing a good business.

Eighteen guests registered for admission on July 4. This company will push matters and the town of Nortonville will be one of the liveliest towns in Kentucky from now on.

## TEACHERS' DRILL

PRIMARY INSTRUCTORS TO BE SPECIALLY TRAINED.

Superintendent C. B. Hatfield, of the local public schools, will on September 1 give all the primary teachers the city a drill on methods of teaching. This is an idea he had been planning to put into action since his visit to Louisville last April.

During that visit he saw the remarkable work done in one building where Miss Elizabeth Walsh, of Louisville, the supervisor of primary teachers, had been working. Miss Walsh has 300 teachers under her and the results accomplished from the drill she gives are the best. Superintendent Hatfield will on September 1 have Miss Walsh come to Paducah and meet the primary teachers for drill in method. This is one point in teaching that the teachers have not been paying enough attention to and which is essential to any other department of teaching and he intends to make it generally noticed and better results gotten.

## NOTHING IN IT.

CORD'S FRIENDS SAY A REPORT ABOUT PRIMARY IS FALSE.

Frankfort, July 5.—Friends of Rail Commissioner McCord say they know nothing about the report published in a local paper that they would call for a convention in October and substitute a price election instead. The matter has never even been discussed.

## YESTERDAY'S TEMPERATURE.

Yesterday seemed much hotter than today. The minimum was 72 and the maximum was 98. This morning was 74, with indications of a hot day.

## MORE TALK TO-DAY

Joint Fire Committee Held Another Investigation Today.

The Fire Chief Tells About Our Fire Hose, and Past Deals Were Discussed.

## NO DECISION YET RENDERED

The joint fire committee of the general council held another meeting at the city hall this morning for the purpose of further investigating the hose deal. A number of things were brought out by the inquiry, one of which is that the city will probably pay for the hose furnished by the National India Rubber company, whether she wants to or not, as the contract is binding. Another thing is that by an oversight the name of the kind of hose to be furnished is omitted, and the company can furnish Anchor Brand, or any sort of hose it chooses, it stands the test. This would eliminate Cairo entirely from the affair, as the company might, according to the argument of some of the committeemen, furnish some other kind of hose to Paducah and it could not be claimed that that class of hose was offered to Cairo at 82 cents.

The committee delved into the subject of hose quite extensively this morning and among other things learned from Fire Chief Woods that our fire hose is in a deplorable condition. In fact, it was described as being "rotten" and yet it is the same hose that has been in use here for six months under the present administration. He said further the hose here at present would not stand a pressure of 100 pounds. The question having been raised as to the amount of hose Paducah needs, Chief Wood said the city ought to have at least 6,000 feet. That at the Kentucky Glass and Queensware fire a few years ago there were 3500 feet of hose cut, and another fire in Mechanicsburg at the same time compelled the department to reel up some of the hose and carry it up there.

In regard to the previous purchase of hose by the city, it developed that the hose mentioned in an article in a local paper signed "Facts" written evidently with the intention of leaving the impression that the previous administration furnished hose cheaper than the present administration, was cotton hose, and not rubber hose, and the price paid for it cannot be compared with the price paid for rubber hose.

It was developed by this part of the investigation that the city has been doing things in a very slipshod manner for some time, and that not only is the contract, bond or guarantee that the Eureka company made in 1899 with the city lost, but that even if it could be found it would be seen that the city had not made the test required in the contract when the hose was delivered, nor was any care taken of the hose, and nothing could be recovered under the contract.

Mr. W. E. Cochran, who sold the city the hose, says it was loaded on the wagons without ever being tested, and that several times it was run over by vehicles, as the records of the police court will show. Further, that the test the hose were required to stand was only "at delivery" and the guarantee ended there.

It seems that the hose question is ready to be dropped. It is getting too warm. It is enabling the public to see how its money has been wasted in the past and how careless have been the methods of some of its public servants. Hose has seldom if ever been tested, little care has been taken of it, the contracts have only been scanned and then lost, and the city left without protection. The admission this morning of the fire chief that all the hose the city has is rotten is a nice thing to go before the world at large, and the insurance people are all right. If the hose is rotten, it is a waste of money in an instant, and the city is left in a very awkward position.

## WEEK'S NEWS IN THE BUSINESS WORLD.

Clearings this week, \$611,145. Same week last year, \$580,357. Increase, \$30,788.

Business is a little dull on account of the holiday, and the warm weather. Wholesale trade is about normal with collections only fair. Retail trade is good with almost all houses. The statements of banks, issued this week, show all the local institutions to have had a good six months. The deposits

are very good, with loans reaching big figures.

All the stores closed yesterday on account of the holiday. In the large cities throughout the country the stores closed today also, giving their employees three days for recreation.

The building under construction is progressing very well, and there are many contracts being let each day. Business in real estate circles is a little quiet.

## STREET CARS TELESCOPED.

Amsterdam, N. J., July 5.—At 11 o'clock Friday night a frightful accident occurred on the Mountain Lake Railway electric road running about five miles north of Gloversville to a summer resort. Two cars were coming down grade, one behind the other, when the motorman on the rear car

lost control and it ran into the first car, telescoping it. The cars ran for some distance on the track and then left it and overturned, falling on the passengers, who were crushed underneath. Eleven known were killed and thirty-three injured.

## MR RUSSELL PROMOTED.

WELL KNOWN SUPERVISOR MADE A ROAD MASTER.

Mr. James Russell, the well known Illinois Central supervisor of the North End of the Louisville division, has been promoted to Roadmaster of the Peoria division of the I. C.

Mr. Russell is well known here and has many friends who will be pleased to learn that he has received a deserved promotion. His district on the Louisville division was from McHenry to Louisville, and from McHenry to Paducah Supervisor Martin Crahen works. He is succeeded by Mr. P. J. Lonergan, of Jackson, Miss.

## HEAD SEVERED.

TERRIBLE ACCIDENT WHICH BEFEL A LAD NEAR FULTON.

Willie Wilmuth, aged 11 years, was killed by an Illinois Central train at Thurman, near Fulton, night before last while watching a team of horses. He was looking under a train when he fell forward and his head was cut off.

## FATALLY HURT BY A HORSE.

Hopkinsville, July 5.—The 12-year-old daughter of Samuel Cook of Crofton was knocked down and perhaps fatally injured by a runaway horse driven by Dr. Eugene Croft.

## SUICIDE NEAR FULTON.

Jim Newton, a well known farmer of near Fulton committed suicide Thursday by taking morphine. He lived but a short time after his condition was discovered.

## VISITING IN FRANKFORT.

Frankfort, July 5.—Former Senator William Lindsey of New York is visiting old friends here.

Mrs. William Settle and children will today return to Ensley, Ala., after a visit to Captain Henry Bailey and family.

## WAS A QUIET FOURTH

The Heat Kept Many People Indoors on Independence Day.

The Parks and Lagoons, However, Had Very Happy and Enthusiastic Crowds.

## GUN TOURNAMENT A SUCCESS

Fourth of July was quietly celebrated in Paducah and there was a holiday air throughout the city that was accentuated by the severe heat, which kept many people indoors.

Hundreds of people, however, went to the park, to the Jolly Pathfinders celebration across the river, and to neighboring cities to spend the day with friends or relatives, while the boats and trains all brought goodly numbers to the city to spend the day.

All in all, however, the crowds were a disappointment.

The postoffice was open the same as on Sunday, the banks, railroad offices and most of the public buildings were closed, and there was no session of the courts, with the exception of a brief sitting of circuit court.

The Illinois Central shops and most of the business houses kept open but a short time. The Fourth was remarkable for the unusual heat, which detracted in no small way from the enjoyment of the anniversary.

Conductor Jack Morthland, of the N. & C. and St. L. railroad, is suffering from a painfully burned hand, resulting from the explosion of a gasoline stove aboard his caboose day before yesterday at Lexington, Tenn. It had just been filled with gasoline when it exploded. Dr. Hessig, of the city, has charge of the case. The caboose was burned by the conflagration following the explosion.

At the park yesterday there was a good crowd, especially at night, when the street car service was wholly inadequate to handle the people. They went to the park clinging to the sides and platforms, and the cars ran until 3 o'clock this morning. The La Belle park stock gave two matinees in the afternoon to crowded houses, and a performance to a packed house at night.

The Dick Fowler had a nice excursion yesterday. There were very few went from Paducah to Cairo, but at many of the way stations and at Cairo about 350 people were picked up and taken to Columbus, Ky. It was one of the nicest crowds handled by the boat officers this year.

Charles, the ten year old son of Mr. Saunt Bryant, a foreman of the N. & C. and St. L., was painfully burned Thursday night by the premature explosion of a toy cannon, the fuse of which he lit. He was struck by the wad and his face was powder-burned but his injuries are not serious.

There were fully 750 people at the Jolly Pathfinders' celebration across the river. The best of order prevailed and not a drop of intoxicating liquor was sold. Some gamblers attempted to start a few games, but their paraphernalia was thrown into the lake as soon as they started up.

The Paducah Gun club's tournament was well attended, and one of the best ever given. There were few visiting marksmen, but the home boys were out in force and did some good work. There were eight events in all, and all entered well.

The street car company must have had five or six thousand paid fares from yesterday's traffic. The best business came after supper, when the heat was not so great.

## REPORT OF UNION RES.

QUE MISSION FOR JUNE

Held 84 gospel meetings, visited 1000 homes, ministered in 20 homes, 1000 religious papers, conversion of 6 people. Pictures and conversion of 5 people. Illustrating this idea, as well as the other.

Susie F. Jones.

He Was Beating Her Around the Bend. Secured the Weapon and Fired.

## WILL PROBABLY BE ACQUITTED

The youngest person ever charged with murder in Paducah is Susie Fraser, a colored girl who will be eleven years old Christmas eve next. She shot her uncle, George Jones, at 1917 Broad street yesterday afternoon shortly before 6 o'clock, and he died at 4 o'clock this morning from the wound.

The girl was presented in police court this morning on a charge of wilful murder. She did not seem to be frightened. Coroner Deal, who had been at the house investigating the case, took her into the judge's office and questioned her and is satisfied that she will be acquitted.

The girl's story is that she had been living with her aunt, Lizzie Jones, wife of the deceased, for some time. Her father, Will Fraser, lives at Bear Springs, Tenn., near Dover.

Yesterday Jones gave his wife a dollar and told her to have a little Fourth of July. Late in the afternoon he found her drinking at Hobley's saloon, it seems, and on the way home began quarreling. The girl had been left at home with the baby during their absence, and it seems that the mother took it from her when she and the man came in and quarreled in their altercation. Jones began striking her, and then started to strike her. She evidently knew that was coming and gave the child to a girl. Jones threw her to a cot in the corner of the room and was choking her when the girl went to a wooden dresser nearby and taking out a .32-caliber self-acting pistol fired one shot for COL. AGTON'S OF SUMMITT. The bullet struck Jones in the right side, coming from the front. Then she ran, and Jones started after her just outside the door. She fired the pistol three times, hitting him not to 10 to 15 feet from the door. "G—d—h" It seems that this is the first time a girl has been charged with murder in Paducah. The hotel and saloon keepers were all there when the shooting occurred. The girl was locked up in the morning declared to the police that she did not know how to use it, it chanced that she was able to make it go off. She said the reason she shot her uncle was that she was afraid he would be killed as he often beat her.

Judge Sanders continued the trial until tomorrow morning, and Coroner Deal said that if the evidence was as he had heard it, there will probably be no warrant issued against the girl, as owing to her age and lack of judgment, she doubtless did what she believed was right, no jury would convict her.

Coroner Deal will hold an inquest this afternoon at 4 o'clock, and the girl will no doubt be acquitted. Meanwhile she is in the lockup.

## TO ENFORCE AN OLD JUDGMENT.

A judgment was this morning filed in circuit court in the case of J. E. Rehkopf and Sons against Nilson, Morris and Co., judgment for the plaintiff.

The judgment filed is to enforce an old judgment on attachment.

### HUMAN BOMB DIED.

HE LIVED BUT A SHORT TIME AFTER HIS ACCIDENT AT LOUISVILLE.

Fred Drie, the "human bomb," who was seen here with the "Last Days of Pompeii" last week, died at Louisville from the effects of his fall Wednesday night. The balloon was not properly inflated, and there was not sufficient descent to enable the parachute to open. His back was broken and he was internally injured. He was 27 years old and less than five feet in height. His home was in New York, and he had been making balloon ascensions since he was fifteen, but as the "human bomb" but for a short time. It had been decided to abandon the "bomb" feature on the night he received his fatal injuries.

The report that he was Prof. Leo Stevens was an error. Prof. Stevens has been in New York for some time working on an air ship, and the young man killed was the one who made the ascensions here.

### TRIAL TODAY.

ERNEST ELMENDORFF AND OTHERS TO BE GIVEN A HEARING AT SMITH-LAND.

The examining trial of Ernest Elmendorff, Ed Carpenter and Will Blackwell, charged with assisting in an attempt to escape from the county jail in Livingston county, comes up today at Smithland. They are charged with having sent saw blades and other tools to George Culver, in jail there for safe blowing. Carpenter is believed to have been with Culver when he cracked the safe at Lola, Livingston county, and secured \$1,200. Elmendorff lives here, and is well known in police circles.

### HAD A FIT.

AND THE FALL KILLED GEORGE COOPER, COLORED

George Cooper, colored, had a fit in the George Winfrey saloon on lower Court street night before last, and in falling struck his head against the door. It was thought possible that someone struck him the blow which killed him, and Coroner Peal held an inquest yesterday afternoon. The evidence showed, however, that the only blow he received was when he fell, and a verdict of accidental death was returned. The man formerly lived at Paris, Tenn., and the remains are being held to await advice as to what to do with it.

### NAMED A CANDIDATE.

J. H. McCONNELL NOMINATED FOR CONGRESS BY ALLIED PARTIES.

The district committee of the Allied People's party met at the county court house here yesterday morning at 10 o'clock and nominated Hon. J. H. McConnell, of Caldwell county, for congress, and endorsed the platform of the National Allied People's party adopted at Louisville April 2, 1902, further recommending a reorganization throughout this district.

### THE PERFECT LIVER MEDICINE

Mrs. M. A. Jolley, Noble, O. T., writes: "I have used Herbine for a number of years, and can cheerfully recommend it as the most perfect liver medicine, and the greatest blood purifier. It is a medicine of positive merit, and fully accomplishes all that is claimed for it." Malaria cannot find lodgment in the system while the liver is in perfect order, for one of its functions is to prevent the absorption of fever producing poisons. Herbine is a most efficient liver regulator. 50c at DuBois, Kolb and Co.

### ANOTHER BLOW AT CIGARETTES

Many local jobbers will not handle cigarettes hereafter, the license to sell them being over \$100 a year, while to retail dealers it is only \$11.50. It requires a great deal of profit to make up even this small amount on the cigarette, which has gradually waned in popularity, until few of them, comparatively speaking, are sold, most of them who use them making them themselves. The law has been in effect only a few days.

### WILL ANSWER MONDAY WEEK.

The property owners whose property is to be condemned for the right of way desired by the Illinois Central must answer in Judge Lightfoot's court next Monday a week. Sheriff Potter and deputies have served all the summons, about 700 in number.

### Graceful Women

A taste for perfect figure is inseparable from a love of the beautiful. The scents of the heliotrope, violet or rose are as precious as the lovely flowers whose breath they are, and while the lives of flowers are brief and we can only enjoy them for a day, the beautiful woman gives the pleasure of her fragrance to us as a permanent blessing. The sweet, pure breath of the heliotrope is suggestive of innocence and health—the soft fragrance of a beautiful woman suggests to the senses purity, health and elegance, she is the refinement of civilization, she is indicative of a desire to please, an index of good taste, and an unerring badge of gentility.

### Bradfield's Female Regulator

In regulating those lunar periods in women, permit of no wrinkles, pale cheeks, tortured nerves and shapeless figures. It is certain, sure and safe. It is Nature's remedy, and there is no such thing as cheating nature. The druggist may offer some other remedy and call it "just as good" thus deceiving the purchaser, but the menstrual organs will not be deceived by it, a permanent injury is often the result. Try our Regulator. All druggists, \$1.00. Our Treatise on Women mailed free. THE BRADFIELD REGULATOR CO. ATLANTA, GA.

### SIAMESE CATS.

Siamese cats, with their curious markings and loud, discordant voices, are now favorite pets. The Chicago Inter-Ocean describes them as follows:

In many respects the animals of Siamese breed are unique among cats. They follow their owners like a dog; they are exceedingly affectionate and insist upon attention and they mew loudly and constantly, as if trying to talk, and to a deaf person at that. They have more vivacity and less dignity than usually falls to the lot of cats.

In color they vary from pale fawn through shades of brown to chocolate. There are two varieties, the temple cats and the palace cats, the principal difference between the two being that the palace breed is darker in color.

The only sacred temple cats that ever left the land of their birth were given to Doctor Nightingale as a mark of special favor by the King of Siam. They were named by their new owner Romeo and Juliet, and are now the property of Lord Marcus Beresford.

### THE BOSS WORM MEDICINE.

H. P. Kampe, druggist, Leighton, Ala., writes: "One of my customers had a child, which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. 25c at DuBois, Kolb and Co.

### WORSE YET.

A young man with a tallowy complexion, blotched face and slender legs called at a doctor's office to consult him.

"Doctor," he said, "I've heard there's such a thing as tobacco heart. I wish you would tell me if you think that's what I've got."

The physician listened to a statement of his symptoms in detail, noted the yellow stain on his fingers, and replied: "No, young man, it isn't tobacco heart that ails you. It is worse than that. It is cigarette brain."

### CURES SCIATICA.

Rev. W. L. Riley, L.L.D., Cuba, New York, writes: "After 15 days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment, the first application giving my first relief, and the second, entire relief. I can give it unqualified recommendation. 25c, 50c and \$1 at DuBois Kolb and Co.

## There's a Difference.

There is a great difference in shoes. Some are made to sell. Some are made to wear and give satisfaction. We leave the first kind to our competitor to sell. The other kind we sell. For instance take our Ladies' Shoes—our pride—The Empress. This shoe is made up especially for us by one of the best factories in this country. We sell it on a guarantee to be the best \$3.50 shoe on the market. We may run across a bad shoe some time, very seldom though. If we do we are always ready to buy it back at the price paid. Would you not prefer a shoe of this kind, one with a guarantee like this, than one you know nothing of? For our gentlemen friends there is nothing better than our \$2.50 shoes. If you prefer something better we have it in the Florsheim at \$5. and \$6. They are leaders in style and "wearability."

### THE FLAG.

A flag swung high on a rampart bold,  
And the soldiers saw it blow;  
And the sun went down and the stars  
came out,  
And over the field died the battle  
shout.  
While the sentries paced to and  
fro.  
A bell tolled loud in the midday air,  
And a flag fluttered over the  
trees.  
And the people gazed with proud de-  
mean  
On the flag that flaunted the starry  
thirteen,  
High in the mid-summer breeze.  
The stars have grown since that far-  
off day  
And the stripes are true and  
bright,  
And over the country they sweep afar,  
Gallant each stripe and gallant each  
star  
Shining by day and by night.  
A single bell tolled in the long ago,  
To rally the brave little band,  
Where chimes now peal in the stiffen-  
ing breeze,  
And shouts ring joyously over the  
seas,  
And flags wave over the land.  
—Augusta Prescott.

### THE WEATHER, THE FOURTH AND SO FORTH.

The social barometer has hardly  
been as active as the weather indicator  
this week; still it has not been alto-  
gether stationary. There has been no  
large entertainments of any sort,  
even among the younger set whose  
disregard of the temperature is gen-  
erally fine, but the smaller affairs  
have enlivened things, and really  
there would be much more on record  
if many of these were not regarded as  
somewhat sub rosa. Every one is as-  
siduously cultivating the informalities  
of life just now.

The Fourth was more or less patri-  
otically observed by Society, but per-  
haps patriotism would have been more  
active if the clerk of the weather had  
not elected to celebrate so vigorously  
and have a fire display that no one  
cared to equal. We, truly, are not  
allowed to forget that we had a "hot  
time" in gaining our independence.  
By contrast with the reminder our  
patriotism may seem a trifle cool, but  
is only by the force of contrast.

### BEAUTIFUL ONE

**O'CLOCK LUNCHEON.**  
Mrs. George Flournoy's Patriotic

munion to Mrs. Hamilton Parks of

ors extended from the center-piece  
diagonally to these cannon. The  
charming effect was further height-  
ened by hand-painted red, white and  
blue-plate cards and napkin rings of  
large fire crackers. The chairs of the  
guests of honor were adorned with  
large bows of red, white and blue rib-  
bons. The red and white effect was  
emphasized throughout the menu  
which was delightful. The glasses of  
sherbet were served on red doilies and  
were decorated with a tiny flag. A  
toast to George Washington was drank  
in beginning. The guests all wore  
white and the national colors in rib-  
bons and flags made the costumes very  
effective and added to the charm of  
the scene.

Electric fans and ices made the tem-  
perature delightful, and one forgetful  
of the heat elsewhere. Cards were  
played after the luncheon.

Mrs. Flournoy's guests were: Mrs.  
Hamilton Parks of Nashville; Miss  
Anna Webb of Washington; Mrs. A.  
N. Clark of Louisville; Mesdames  
Robert Becker Phillips, George C.  
Wallace, Joseph L. Friedman, Milton  
Cope, John Campbell, Campbell  
Flournoy, Armour Gardner, Cook  
Husbands.

### D. A. R. ENTERTAINMENT.

The Daughters of the American  
Revolution enjoyed a delightful social  
meeting with Mrs. David G. Murrell  
on Wednesday evening. An interest-  
ing patriotic program was given.  
Mrs. Murrell read a paper on "Mon-  
uments and Relics of the Revolution,"  
which was especially clever, being in  
poetry. Charming music by Miss  
Virginia Lesh, Miss Addie Hart,  
Misses Mildred and Lucyette Soule  
varied the evening. An interesting  
feature was the discussion of the mon-  
ument to be erected by the chapter to  
George Rogers Clark's memory, which  
will be a statue of this noted soldier.  
Dr. Murrell was empowered to look  
into the matter during his trip abroad,  
and if best have the statue made in  
Italy. It will be an honor to the  
city.

This was an open meeting, and  
many gentlemen and invited guests  
were present. Delightful ices and  
cake were served during the evening.

### PLEASANT HOUSE PARTY.

Mr. and Mrs. Charles E. Graham  
entertained a delightful house party  
at their pretty West Broadway home  
this week, in honor of Mrs. Ed-  
ward Perry Garrett of Summerville,  
Texas; Mrs. Emma Linn and Miss Be-  
sie Wilkins of Brenham, who are vis-  
iting the family of Captain Wm. H.

Gilbert, Mr. Yates of Louisville, Mr.  
Race Dipple, Mr. Gus Thompson, Mr.  
Harry Gilbert, Dr. Horatio Reed.

### THE FOURTH AT "THE FERNS."

Mrs. Elbridge Palmer and Miss  
Gould entertained a few friends at  
their beautiful home "The Ferns" on  
the evening of the Fourth. Supper  
was served al fresco, with the table  
on the lawn under a grove of orange  
trees. The decorations were charming  
variations of red, white and blue, and  
the menu was an emphasis of the  
same. The guests to tea were: Mrs.  
Charles Trueheart, of Louisville;  
Misses Claribel Rieke, Emma Reed,  
Bertie Nash, Jessie Nash, Cherie Mor-  
ton, Carrie Rieke.

Later in the evening a number of  
guests arrived to witness the pretty  
fireworks display. These were Master  
Elbridge Palmer's young friends and  
some grown-ups, also. The fireworks  
were cleverly arranged in a representa-  
tion of Mt. Vesuvius, and the effect  
was very beautiful. A most charm-  
ing evening was spent, adding to the  
list of notable ones enjoyed at this  
hospitable home.

### PARTY UP THE TENNESSEE.

Quite an enjoyable party left this  
week to make the round trip on the  
Clyde up the Tennessee river. They  
were the guests of Miss Henrietta  
Koger, and Mr. David Koger, and the  
occasion was in honor of Miss Koger's  
guest, Miss May Phelps of Washing-  
ton, D. C. Captain and Mrs. James  
Koger chaperoned the party, which  
was composed of:

Miss May Phelps of Washington,  
Miss Caroline Sowell, Miss Mabel  
Rieke, Miss Lillie Mae Winstead, Miss  
Blanche Hills, Miss Frances Terrell,  
Miss Louise Cox, Miss Ethel Brooks,  
Mr. Roscoe Reed, Mr. George DuBois,  
Mr. Robert Dorris.

on Thursday evening at her pleasant  
home on South Seventh street in honor  
of her guests, Miss Mary Duiguid of  
Murray and Miss May Weber of Hick-  
ory Withe, Tenn. It was a very de-  
lightful occasion. Music and delicious  
refreshments were part of the even-  
ing's pleasure.

The guests included: Messrs. and  
Mesdames Harry Johnston, Fred  
Acker and Jesse Curd; Mrs. John G.  
Miller; Misses Annie Street, Elizabeth  
Street, Frances Herndon, Birdie Gil-  
bert, Irene Schwab, Carrie Ewell,

Husbands; Messrs. Ed Pettit, Harry  
Gilbert, Ed Foster, Sid Lemon, Wal-  
lace Weil, Guy Robertson, Robert  
Caldwell Seldon Fakes, Gordon Head,  
James Sleeth, Oscar Hank, John  
Miller, Jr., Taylor Fisher and Mr.  
Iverson.

### BIRTHDAY PARTY.

Little Miss Mary Leigh, daughter of  
Alderman and Mrs. Charles Q. C.  
Leigh, entertained with a pretty party  
on Monday evening at her home on  
West Monroe street in celebration of  
her tenth birthday. Quite a number of  
her young friends enjoyed the occa-  
sion, and the young hostess did the  
honors most gracefully. Delightful  
refreshments were served.

Those present were: Misses Allie  
D. Foster, Nell Mercer, Saidie Pear-  
son, Saidie Hudson, Belle O'Brien,  
Ethel O'Brien, Marjorie Martin, Lil-  
lian Maret, Ina Kahn, Martha Cope,

### PLEASANT OCCASION.

Little Miss Mildred Duck of Green-  
ville, Texas, entertained a number of  
her young friends on Monday after-  
noon from 3 to 5 o'clock at the home  
of her grandmother, Mrs. H. C.  
Warden of North Sixth street. It was  
in honor of the birthday of the little  
lady and was a most happy occasion.  
Dainty refreshments were served on  
the lawn. A number of pretty gifts  
were received by the young hostess  
who left this week for her Texas home  
and Chicago.

### MORNING CARD PARTY.

Mrs. W. F. Bradshaw entertained  
informally at cards on Tuesday morn-  
ing at her home on West Broadway in  
honor of her guest, Mrs. George Wil-  
lig of Waco, Tex. There were two  
tables of eight-hand euchre and the  
occasion was most pleasant. The  
prizes were won by Miss Anna Webb  
of Washington City and Miss Kate  
Hodge of Waco, Tex. A delightful  
luncheon was served after the game.

### PARTY TO SMITHLAND.

Mrs. W. H. Sanders chaperoned Miss  
Martha Davis, Miss Virginia Lockett  
of Henderson, Ky., Miss Laura San-  
ders, Miss Lillian Rudy, and Mr.  
Will Sanders, to Smithland this week.  
It was a delightful little outing and  
greatly enjoyed. It was in honor of  
Miss Lockett who was the guest of  
Miss Martha Davis.

### U. D. C. LAWN PARTY.

The Paducah chapter of United  
Daughters of the Confederacy gave a  
lawn party at the residence of Dr. and  
Mrs. D. G. Murrell on Thursday  
evening for the benefit of the Confed-  
erate monument fund. The lawn was  
gay with Japanese lanterns and the  
tables were most attractively ar-  
ranged. It was a pretty occasion and  
well patronized.

### SURPRISE PARTY.

Thursday was the fourteenth anni-  
versary of the marriage of Mr. and  
Mrs. Alexander Kirkland, and a num-  
ber of their friends surprised them by  
descending on them en masse and cel-  
ebrating the event. A most pleasant  
evening was spent at this popular  
home.

### PARTY TO MAMMOTH CAVE.

If Bully Bailey, of Texas, really  
wants trouble, and is itching to slap  
some one's face, he will doubtless find  
that there is something doing in the  
state department office at Washington,  
from which has been issued by Soli-  
citor Penfield, Senator Bailey's criti-  
cism of whom prompted the alterca-  
tion with Senator Beveridge, a red hot  
statement in which Solicitor Penfield  
as good as calls Senator Bailey a self-  
conscious liar and a man given to  
"spasmodic displays of asininity,"  
the latter we presume being one of the  
chief characteristics of an ass. If Sen-  
ator Bailey cannot restrain himself  
from choking or slapping the face of a  
senator who simply accuses him of  
making an "unwarranted attack," it  
is interesting to know what he will do  
to a man who calls him both an ass  
and a liar.

Rural free delivery seems to have  
proven very successful in the United  
States. There were in operation July  
1, 9451 routes, and adverse reports  
were made on 1475. August 1 there  
are to be established 365 additional  
routes, with 10,198 petitions yet to  
pass on. Of the entire number, Ken-  
tucky has 45 routes established, six to  
be established August 1 and 156 yet to  
be passed on.

Mr. Charles M. Schwab, president

There are few men in America whose

### Observations ....at Random

This is a horse story. A young lady who is very popular, recently discovered that her pony had escaped. She started out to locate the animal and prevent its being placed in the pound, and searched and searched until finally she espied a sorrel animal in a vacant lot in the suburbs. It was the exact color of the animal she sought and stopping a colored man who was passing in a wagon, she said:

"Uncle, I wish you'd go over there and catch that pony for me. I'll pay you for it. I've just been looking everywhere for it."

The old man got down, took the halter, and went to the lot and chased the pony around a bit, while the young lady stood in the street and awaited developments. Finally he corralled the beast and placing the halter on, led it out.

The animal was greeted very effusively by the young lady. "Dear old Lizzie," she exclaimed. "I've looked and looked for you, and am so glad those horrid old men didn't have you in the pound!"

"Ma'am," deferentially ventured the old man, as he cocked his head and peered at her in a curious manner, "wut yo' say am de name ob dat pony o' yo'n?"

"Lizzie," she replied as she gave the animal another hug.

"Wal, ma'am," rejoined the old man as he removed the halter and climbed into his wagon, "I guess de name ob dis beast must be Charlie."

And the young lady had to renew the search for her own pony.

A prominent doctor is enjoying a good joke at the expense of his wife. The other day he went home, according to his story, and found on the dresser a bottle of peroxide of hydrogen.

"Of course," he said in telling it to a reporter, "I knew what that meant. I knew it meant 'blondine,' and if there is anything I hate in a woman, in my wife, of course I mean, it's blondined hair. I don't say I feel this way towards other men's wives. But there was the bottle and I quickly determined to block her little game. Going into the bath room, I emptied every drop of it into the sink, and then filled it with water. I replaced the cork and put it where I found it. My wife has been industriously using it on her hair for some little time now and is wondering why it doesn't make her hair begin to turn yellow. Some of these days I'm going to tell her."

A good joke is being told on several well known sports who purchased a goodly supply of beer and other refreshments yesterday, and hid themselves across the river, intending to get off in the woods and have a quiet day to themselves drinking and disporting themselves at the seductive games of craps, chuck-luck and poker.

When they got there, however, they found a delegation of vigilant Massac county constables on hand, and were unable to escape their watchful eyes even long enough to take a drink.

Some of them finally became disgusted and came home before noon.

There is now unusual activity among the agents for outside newspapers in Paducah. The Nashville, Memphis, St. Louis and Louisville papers are struggling for supremacy, and many free copies are being thrown around. The Memphis morning papers arrive at 11:30, the Nashville at 1:15, the St. Louis at 3 and the Louisville at 3:30. None of the evening papers arrive until the following morning.

Mr. W. R. Matheny, a well known huckster, has a peculiar freak in the way of an egg. Its color closely resembles a sun flower. It is on the sides of the egg have all sorts of pretty scollops and streaks running out from the sides. He calls it a "clock dial" and had it on exhibition this morning. He says it came from Marshall county.

### Used In Hot Weather Paine's Celery Compound

Renews and Invigorates the  
Body and Maintains a  
Strong and Clear  
Brain.

Thousands of people in whose blood lurk the seeds of disease, decline mentally and physically when the hot weather comes on. They become weak, languid, morose, have loss of memory, loss of appetite with wasting of flesh.

For all such, Paine's Celery Compound is an absolute necessity at this time. It is the only remedy approved of by able physicians for purifying and enriching the blood, for feeding and nourishing the nerves, for maintaining digestive vigor, for the building of flesh, tissue and muscle, and for promoting refreshing and healthful sleep.

If your condition of health is not satisfactory; if you are not happy, active, and vigorous at present, try the virtues of one bottle of Paine's Celery Compound; you will have cause to thank Heaven that such a marvelous recuperator was placed within your reach.

The following letter from Hon. J. S. McCarthy, Washington, D. C., a gentleman of national reputation, is a blessed assurance to all hot weather sufferers that Paine's Celery Compound can bestow that health and vigor so much needed at this season:

"I was suffering with nervousness, loss of appetite, and insomnia. I was all run down, and nothing did me good, until a friend advised me to try Paine's Celery Compound. I took four bottles of the Compound and I am more than proud to testify that it completely cured me. I haven't had an unwell day since. I eat hearty and sleep like a healthy baby. I consider Paine's Celery Compound the best remedy manufactured, and I most heartily recommend it to suffering humanity the world over."

Thought He Was Spiritual Adversary. The Rev. William C. Starr, an Episcopal clergyman living in Philadelphia, once took the services for a brother clergyman in a New Jersey parish. The Sunday school superintendent introduced him to the children by name, and he straightway began to advise and instruct them as to a righteous, exemplary life, dwelling upon the necessity for warfare with our spiritual adversary.

"And now, children," he asked, "who is our spiritual adversary?" "Mr. Starr!" shouted boys and girls in all parts of the room, apparently proud of their quality of quick comprehension.

## Boys of the Belt.

In the days of the highland clans, the chieftain was a great man indeed. As often as not he was a well-bred scholar, and his word was law within the glens and moors where his followers lived. When he paid a formal visit he was attended by a number of personal servants, who were called familiarly, "the boys of his belt." Highland pride was such that it soon passed into proverb. His bodyguard in peace was composed of his henchman (or right-hand man), poet (or bard), orator, armor-bearer, horse leader, knapsack carrier, piper and piper's man, gillie to carry him pickaback over streams, and a dozen other strapping young fellows without especial duty save to do his bidding. When his native health, a highland chief, he was a great man indeed.

## A Few Fights and Other Disturbances Investigated.

One Negro Charged with Mayhem, or Ear Splitting—Other Trials.

Charles Hackney, colored, is under arrest on a charge of mayhem. He is alleged to have assaulted Henry Johnson, an employee at the boat store with a loaded billiard cue, and split his ear. The trouble is alleged to have originated over a woman, and the case was not ready for trial.

The case against Jim Dusenberry, charged with stealing some hinges, was partially heard and left open.

A breach of the peace case against John Crawford and Shelley Clark was left open.

A gaming case against Andy Hayden, alias Slayden was continued. The warrant is over six years old and the court decided that while five years is the limit in gaming prosecutions, it is only when no warrant has been issued, and that a warrant for gaming is just as good five or a dozen years after it is issued as on the day it is issued.

Will Harris and George Johnson, colored, were acquitted on a charge of using boisterous language on the streets.

Frank Dillard was fined \$20 and costs for striking a West Court street woman.

O. E. Bondurant and Frank Bowder were fined \$5 and costs each for being disorderly.

G. H. Palmer was fined \$1 and costs for a plain drunk.

W. J. Dye and Bud Quarles were charged with engaging in a fight. The evidence showed that Dye went into Mr. Quarles' saloon and claimed he had change coming to him. He raised such a disturbance that twenty cents was given him to get rid of him and he was told to stay out. He went back, began another disturbance and when an attempt was made to put him out drew a knife and was struck with a billy. He was fined \$5 and costs and Mr. Quarles was acquitted.

Ed Eaker was fined \$5 and costs for a breach of the peace, committed by striking Mr. H. Zuber.

George Denny failed to answer to a charge of breach of the peace, and it was reported had gone up Tennessee river. He was fined \$5 and costs and his \$30 recognizance declared forfeited.

Mrs. Morgan McCreary of 507 South Fifth street is ill.

## SCIENTIFIC FEEDING AND EXERCISE SOLVES THE PROBLEM.

Dr. H. L. Warner, in a recent issue of the New York World says:

"Only a small percentage of the American people have perfect digestion and assimilation of food and the elimination of the waste matters of the body. In the matter of food and exercise, the whole problem of health is contained. By making these right, we can create perfect health."

Digestive disturbances are due either to improper food or too much or too little proper food. With proper food taken in reasonable amounts, the imperfect actions of the various processes are corrected.

This is not a fact but a fact established by the researches of pathologists and bacteriologists. The action of foods on the digestive assimilation organs is known exactly. The result to the blood and through it to the whole system, is certain and definite."

The most highly nutritive food now manufactured is Grape Nuts. It is made from certain parts of the grain and put through a mechanical process whereby the starches are changed to grape sugar and the phosphates of the cereals retained and thus supply the necessary nourishment and vitality to the body, brain and nerve centers.

In its predigested form, Grape Nuts does not overtax the stomach, but renders sufficient assistance to the digestive organs to permit of the easy assimilation of other food.

Thoroughly cooked at the factory by food experts, brings Grape Nuts from the grocer to you ready to serve with the addition of cream, and its crisp taste with the delicate sweet of the grape sugar, makes it pleasing to the palate of the most critical connoisseur.

These are some facts which can be proved by scientific feeding. It is a fact that Grape Nuts is a food which can be proved by scientific feeding.

## GREAT FORTRESS OF LA CABANA.

Monument to Spanish Cruelty Standing at Havana.

La Cabana is the largest Spanish fortification in the new world. It has been several centuries in growing to its now immense dimensions. Crowning the heights across the bay from the city of Havana, a record of its guests is a record of three centuries of grief and agony of a race. Eighteen to twenty millions of dollars in gold have been spent upon its vast and massive walls and ramparts, its moats and fosses. Impregnable was it deemed to be by the Spanish engineers.

Up the narrow, slanting, rock-paved caseway from the water side to the stern stone portals of the single entrance have passed a long procession of Cuban patriots. Men and sometimes women, wasted and fair of face, mere boys and white-haired men; and few are they who have ever come out again. They died in the dungeons by scores, and their bodies were buried in trenches or borne through the subterranean passage to the ramparts of El Moro and there thrown to the sharks in the open sea. Those of lesser note who dared to yet live were taken by platoons to that scarred and dented wall of rock without the gate, there stood against the wall and shot to death.

This spot is now hallowed ground to the freeman of to-day. A little fence stakes it in, a bronze tablet is to be set against the bullet-battered wall of rock. The grass before us, so luxuriant, has been drenched and drenched again with the noblest blood of Cuba's patriots. The Cuban soldier guarding the gateway watched us lift our hats before the sacred and consecrated plot of martyred earth, says William Seymour Edwards in the Charleston (W. Va.) Daily Mail. He bowed to us respectfully as we re-entered, and it seemed to me that there was a deeper, kinder light than casual greeting in his black eye.

## A COLD SNAP IN ILLINOIS TOWNS

Remarkable Effects of a Recent Spell of Extra Frigidity.

A cold snap is as bad as the fishing season for making liars. A West Alton man says that a citizen of that town threw a cupful of water at a cat one cold morning this winter. The water froze into a chunk of ice in the air, hit the cat on the head, and broke its skull.

Then he tells about a Flint Hill woman who left a lamp burning all night in the kitchen, and when she tried to blow it out in the morning, found the flame frozen hard. She broke it off and threw it into the woodshed, where later it thawed out and set the shed on fire.

As if these two were not enough, he winds up with the story of a St. Charles doctor, who just before he started out on a drive took half a dozen good-sized drinks of fine old bourbon. It was a cold night, and his breath was frozen into chunks. He put the chunks into a pail when he got home and thawed them out, and had a quart of pretty fair whisky.—Alton (Ill.) Telegraph.

Have Much Faith in Milk.

The Chinese have the idea that milk revives the youthful powers and that it has special virtue as winter food for old people. Pictures and characters illustrating this idea, as well as GOLD.

**ATTENDING A FAMILY REUNION**

Mr. W. B. Kennedy, the tobaccoist, is attending a family reunion at Hopkinsville today. It is expected that fully two hundred or more of the family will be in attendance. He took with him a handsomely encased silver half dollar of 1830, the year of his birth, to give to the youngest member of the family.

**THE WEEK IN SOCIETY.**  
(Continued from Third Page.)

Mr. Louis M. Rieke and sons, Louis and Calhoun, spent the Fourth at Dawson Springs with Mrs. Rieke, who has been there for a week.

Miss Virginia Lockett returned to her home in Henderson, Ky., this week, after a delightful visit to Miss Martha Davis. Miss Lockett is rarely attractive, and is most popular here.

Miss May Higgins of St. Louis will arrive next week to visit Miss Mae Paxton. Miss Higgins is always an attractive and popular visitor in the city.

Miss Inez Vertrees, who has been the pleasant guest of the Misses Puryear of North Eighth street for several weeks, returned to her home in Vine Grove, Ky., this week.

Mrs. W. H. Levy and daughters, Misses Edith and Aimee, returned to their home in St. Louis today, after a pleasant visit to Mrs. Herman Wallerstein and Mrs. Jacob Wallerstein.

Miss Manie Cobb is the guest of her cousin, Miss Annie James of Evansville. Miss Cobb is one of the attractive members of the younger set, and is quite popular in Evansville, also.

Mrs. James Wilhelm and children will leave next week for Biloxi, Miss., where Mrs. Wilhelm and her sister, Mrs. Mary Bain, of Birmingham, Ala., have taken a cottage for the summer.

Dr. and Mrs. D. G. Murrell will leave the 25th of this month for a several months' stay in Europe. They will sail with a party of friends from New York, and will have a most delightful trip.

Miss Susan Polk Temple, who has been visiting her sister, Mrs. C. H. Brothers, for several weeks, left this week for a several months' stay in California. She will return to Paducah in October.

Mr. and Mrs. Leffert Lefferts Buck of New York City, are now in Montreal, Canada, visiting friends. They were in Canton, N. Y., at the old home place of Mr. Buck before going to Canada.

Miss Mary Duquid of Murray and Miss May Weber of Hickory Withe, Tenn., who have been pleasant guests of Miss Bonnah Reddick left for Murray on Friday, where Miss Weber will visit Miss Duquid before returning home.

Mrs. Emily Wheeler, who has been spending the winter with her daughter, Mrs. W. F. Bradshaw, left for Hopkinsville this week. She was accompanied by her daughter, Mrs. George Willig of Waco, Texas, who has been visiting here.

Miss Edwina Tutt of St. Louis and Miss Katherine Douglas of Washington, D. C., who were expected this week to visit Miss Louisa Cox, will not arrive until Tuesday of the coming week. They are said to be very charming, and will be very popular visitors.

Mrs. Allen Jorgenson and daughter, Miss Susanne Jorgenson, have gone to Princeton, Ky., to join Mr. Jorgenson, who is located there now. Miss Jorgenson is one of the social favorites here, and will be greatly missed in the Sans Souci club meetings and other functions.

The St. Louis Globe Democrat of Tuesday contained a striking and attractive picture of the popular Mrs. Victor Voris of this city. Mrs. Voris has been the guest of Mrs. P. D. Cheney of St. Louis on various occasions, and is equally popular there. The Globe Democrat stated she would soon be Mrs. Cheney's guest again.

Miss May Williams of Millersburg, Ky., was the guest of her cousin, Mrs. Samuel T. Hubbard, this week. Miss Williams is a member of the faculty of the old and established college at Millersburg, and was here in the interest of her school. She is a gifted musician, and very attractive, and has several times visited Paducah before.

Miss Elizabeth Mohan won the trip to the Minneapolis Educational Convention as the most popular teacher in Paducah, by some 20,000 majority. This was exceedingly flattering, as a number of popular teachers were also in the contest. Miss Mohan is very talented and charming, and will reflect honor on Paducah while at Minneapolis.

The Dallas, Tex., papers make the following complimentary mention of Miss Blanche Buckner, formerly of Paducah, who has been visiting her sister, Mrs. Arthur Carey of that city: "Miss Blanche Buckner, who has been the visiting star of society here, will leave next week for Dallas, Tex., where she will be the guest of her sister, Mrs. Arthur Carey."

Mr. W. B. Kennedy, the tobaccoist, is attending a family reunion at Hopkinsville today. It is expected that fully two hundred or more of the family will be in attendance. He took with him a handsomely encased silver half dollar of 1830, the year of his birth, to give to the youngest member of the family.

# "A Study In Scarlet"

BY CONAN DOYLE

your bones should bleach in this wilderness than that you should prove to be that little speck of decay which in time corrupts the whole fruit. Will you come with us on these terms?"

"Guess I'll come with ye on any terms," said Ferrier, with such emphasis that the grave elders could not restrain a smile. The leader alone retained his stern, impressive expression.

"Take him, Brother Stangerson," he said. "Give him food and drink, and the child likewise. Let it be your task also to teach him our holy creed. We have delayed long enough. Forward! On, on to Zion!"

"On, on to Zion!" cried the crowd of Mormons, and the words rippled down the long caravan, passing from mouth to mouth until they died away in a dull murmur in the far distance. With a cracking of whips and a creaking of wheels the great wagon got into motion, and soon the whole caravan was winding along once more. The elder to whose care the two waifs had been committed led them to his wagon, where a meal was already awaiting them.

"You shall remain here," he said. "In a few days you shall have recovered from your fatigues. In the meantime remember that now and forever you are of our religion. Brigham Young has said it, and he has spoken with the voice of Joseph Smith, which is the voice of God."

## CHAPTER II.

This is not the place to commemorate the trials and privations endured by the immigrant Mormons before they came to their final haven. From the shores of the Mississippi to the western slopes of the Rocky mountains they had struggled on with a constancy almost unparalleled in history. The savage man and the savage beast, hunger, thirst, fatigue and disease, every impediment which nature could place in the way, had all been overcome with Anglo-Saxon tenacity. Yet the long journey and the accumulated terrors had shaken the hearts of the stoutest among them. There was not one who did not sink upon his knees in heartfelt prayer when they saw the broad valley of Utah bathed in the sunlight beneath them and learned from the lips of their leader that this was the promised land, and that these virgin acres were to be theirs forevermore.

Young Ferrier proved himself to be a skillful administrator as well as a resolute chief. Maps were drawn and charts prepared in which the future city was sketched out. All around farms were apportioned and allotted in proportion to the standing of each individual. The tradesman was put to his trade and the artisan to his calling. In the town streets and squares sprang up as if by magic. In the country there were draining and hedging, planting and clearing, until the next summer saw the whole country golden with the wheat crop. Everything prospered in the center of the city grew ever taller and larger. From the first blush of dawn until the closing of the twilight the clatter of the hammer and the rasp of the saw were never absent from the monument which the immigrants erected to Him who had led them safe through many dangers.

The two castaways, John Ferrier and the little girl who had shared his fortunes and had been adopted as his daughter, accompanied the Mormons to the end of their great pilgrimage. Little Lucy Ferrier was borne along pleasantly enough in Elder Stangerson's wagon, a retreat which she shared with the Mormon's three wives and with his son, a red-haired, forward boy of 12. Having rallied, with the elasticity of childhood, from the shock caused by her mother's death, she soon became a pet with the new life in her moving canvas covered home. In the meantime, Ferrier, having recovered from his privations, distinguished himself as a useful guide and an indefatigable hunter. So rapidly did he gain the esteem of his new companions that when they reached the end of their wanderings it was unanimously agreed that he should be provided with as large and as fertile a tract of land as any of the settlers, with the exception of Young himself and of Stangerson, Kimball, Johnston and Drebber, who were the four principal elders.

On the farm thus acquired John Ferrier built himself a substantial loghouse, which received so many additions in succeeding years that it grew into a roomy villa. He was a man of a practical turn of mind, keen in his dealings, skillful with his hands. His iron constitution enabled him to work morning and evening at improving and tilling his lands. Hence it came about that his farm and all that belonged to him prospered exceedingly. In three years he was better off than his neighbors, in six he was well to do, in nine he was rich, and in twelve there were not half a dozen men in the whole of Salt Lake City who could compare with him. From the great inland sea to the distant Wahsatch mountains there was no name better known than that of John Ferrier.

There was one way, and only one, in which he offended the susceptibilities of his co-religionists. No argument or persuasion could ever induce him to set up a female establishment after the manner of his companions. He never gave reasons for this persistent refusal, but contented himself by resolutely and inflexibly adhering to his determination. There were some who accused him of lukewarmness in his adopted religion and others who put it down to greed of wealth and reluctance to incur expenses. Others, again,

spoke of some early love affair and of a fair haired girl who had pined away on the shores of the Atlantic. Whatever the reason, Ferrier remained strictly celibate. In every other respect he conformed to the religion of the young settlement and gained the name of being an orthodox and straight walking man.

Lucy Ferrier grew up within the loghouse and assisted her adopted father in all his undertakings. The keen air of the mountains and the balsamic odor of the pine trees took the place of nurse and mother to the young girl. As year succeeded to year she grew taller and stronger, her cheek more ruddy and her step more elastic. Many a wayfarer upon the highroad which ran by Ferrier's farm felt long forgotten thoughts revive in his mind as he watched her lithe, girlish figure tripping through the wheatfields or met her mounted upon her father's mustang and managing it with all the ease and grace of a true child of the west. So the bud blossomed into a flower, and the year which saw her father the richest of the farmers left her as fair a specimen of American girlhood as could be found in the whole Pacific slope.

It was not the father, however, who first discovered that the child had developed into the woman. It seldom is in such cases. That mysterious change is too subtle and too gradual to be measured by dates. Least of all does the maiden herself know it until the tone of a voice or the touch of a hand sets her heart thrilling within her, and she learns, with a mixture of pride and of fear, that a new and larger nature has awakened within her. There are few who can not recall that day and remember the one little incident which heralded the dawn of a new life. In the case of Lucy Ferrier the occasion was serious enough in itself, apart from its future influence on her destiny and that of many besides.

It was a warm June morning, and the Latter Day Saints were as busy as the bees whose hive they had chosen for their emblem. In the fields and in the streets rose the same hum of human industry. Down the dusty highroads defiled long streams of heavily laden mules, all heading to the west, for the gold fever had broken out in California, and the overland route lay through the city of the elect. There, too, were droves of sheep and bullocks coming in from the outlying pasture lands and trains of tired immigrants, men and horses equally weary of their interminable journey. Through all this motley assemblage, threading her way with the skill of an accomplished rider, there galloped Lucy Ferrier, her fair face flushed with the exercise and her long chestnut hair floating out behind her. She had a commission from her father in the city and was dashing in as she had done many a time before with all the fearlessness of youth, thinking only of her task and how it was to be performed. The travel stained adventurers gazed after her in astonishment, and even the unemotional Indians, journeying in with their peltry, relaxed their accustomed stoicism as they marveled at the beauty of the pale faced maiden.

She had reached the outskirts of the city when she found the road blocked by a great drove of cattle, driven by a half dozen wild looking herdsmen from the plains. In her impatience she endeavored to pass this obstacle by pushing her horse into what appeared to be a gap. Scarcely had she got fairly into it, however, before the beasts closed in behind her, and she found herself completely imbedded in the moving stream of fierce eyed, long horned bullocks. Accustomed as she was to deal with cattle, she was not alarmed at the situation, but took advantage of every opportunity to urge her horse on in the hope of pushing her way through the cavalcade. Unfortunately the horns of one of the creatures, either by accident or design, came in violent contact with the flank of the mustang and excited it to madness. In an instant it reared up upon its hind legs, with a snort of rage and, pranced and tossed in a way that would have unseated any but a most skillful rider. The situation was full of peril. Every plunge of the excited horse brought it against the horns again and goaded it to fresh madness. It was all that the girl could do to keep herself in the saddle, yet a slip would mean a terrible death under the hoof of the unwieldy and terrified animal. Unaccustomed to sudden emergencies, her head began to swim and her grip upon the bridle to relax. Choked by the rising cloud of dust and by the steam from the struggling creatures, she might have abandoned her efforts in despair but for a kindly voice at her elbow which assured her of assistance. At the same moment a sinewy brown hand caught the frightened horse by the curb, and forcing a way through the drove, soon brought her to the outskirts.

"You're not hurt, I hope, miss?" said her preserver respectfully. She looked up at his dark, fierce face and laughed sardonically. "I'm awful frightened," she said naively. "Whoever would have thought that Poncho would have been so scared by a lot of cows?" "Thank God you kept your seat," the other said earnestly. He was a tall, savage looking young fellow, mounted on a powerful roan horse and clad in the rough dress of a hunter, with a long rifle slung over his shoulders. "I guess you are the daughter of John Ferrier," he remarked. "I saw you ride down from his house. When you see him, ask him if he remembers the Jefferson Hopes of St. Louis. If he's the same Ferrier, my father and he were pretty thick."

yourself? The young fellow seemed pleased at the suggestion, and his dark eyes sparkled with pleasure. "I'll do so," he said. "We've been in the mountains two months and are not over and above in visiting condition. He must take as he finds us."

"He has a good deal to thank you for, and so have I," she answered. "He's awful fond of me. If those cows had jumped on me, he'd have never got over it."

"Neither would I," said her companion. "You? Well, I don't see that it would make much matter to you anyhow. You ain't even a friend of ours."

The young hunter's dark face grew so gloomy over this remark that Lucy Ferrier laughed aloud.

"There, I didn't mean that," she said. "Of course you are a friend now. You must come and see us. Now I must push along, or father won't trust me with his business any more. Goodby."

"Goodby," he answered, raising his broad sombrero and bending over her little hand. She wheeled her mustang round, gave it a cut with her riding whip and darted away down the broad road in a rolling cloud of dust.

Young Jefferson Hope rode on with his companions, gloomy and taciturn. He and they had been among the Nevada mountains prospecting for silver and were returning to Salt Lake City in the hope of raising capital enough to work some lodes which they had discovered. He had been as keen as any of them upon the business until this sudden incident had drawn his thoughts into another channel. The sight of the fair young girl, as frank and wholesome as the Sierra breezes, had stirred his volcanic, untamed heart to its very depths. When she had vanished from his sight, he realized that a crisis had come in his life, and that neither silver speculations nor any other questions could ever be of such importance to him as this new and all absorbing one. The love which had sprung up in his heart was not the sudden, changeable fancy of a boy, but rather the wild, fierce passion of a man of strong will and imperious temper. He had been accustomed to succeed in all that he undertook. He swore in his heart he would not fail in this if human effort and human perseverance could render him successful.

He called on John Ferrier that night and many times again until his face was a familiar one at the farmhouse. John, cooped up in the valley and absorbed in his work, had little chance of learning the news of the outside world during the last 12 years. All this Jefferson Hope was able to tell him and in a style which interested Lucy as well as his father. He had been a pioneer in California and could narrate many a strange tale of fortunes made and fortunes lost in those wild, halcyon days. He had been a scout, too, and a trapper, a silver explorer and a ranchman. Wherever stirring adventures were to be had Jefferson Hope had been there in search of them. He soon became a favorite with the old farmer, who spoke eloquently of his virtues. On such occasions Lucy was silent, but her blushing cheek and her bright, happy eyes showed only too clearly that her young heart was no longer her own. Her honest father may not have observed these symptoms, but they were assuredly not thrown away upon the man who had won her affections.

It was a summer evening when he came galloping down the road and pulled up at the gate. She was at the doorway and came down to meet him. He threw the bridle over the fence and strode up the pathway.

"I am off, Lucy," he said, taking her two hands in his and gazing tenderly down into her face. "I won't ask you to come with me now, but will you be ready to come when I am here again?"

"And when will that be?" she asked, blushing and laughing.

"A couple of months at the outside. I will come and claim you then, my darling. There's no one who can stand between us."

"And how about father?" she asked.

"He has given his consent, provided we set these mines working all right. I have no fear on that head."

"Oh, well, of course, if you and father have arranged it all, there's no more to be said," she whispered, with her cheek against his broad breast.

"Thank God!" he said hoarsely, stooping and kissing her. "It is settled, then. The longer I stay the harder it will be to go. They are waiting for me at the canyon. Goodby, my own darling—goodby. In two months you shall see me."

He tore himself from her as he spoke, and, flinging himself upon his horse, galloped furiously away, never even looking around, as though afraid that his resolution might fail him if he took one glance at what he was leaving. She stood at the gate, gazing after him, until he vanished from her sight. Then she walked back into the house, the happiest girl in all Utah.

## CHAPTER III.

Three weeks had passed since Jefferson Hope and his comrades had departed from Salt Lake City. John Ferrier's heart was sore within him when he thought of the young man's return and of the impending loss of his adopted child. Yet her bright and happy face reconciled him to the arrangement more than any argument could have done. He had always determined, deep down in his resolute heart, that nothing would ever induce him to allow his daughter to wed a Mormon. Such a marriage he might think of the Mormon doctrines, upon that point he was inflexible. He had to seal his mouth on the subject, however, for to express an unorthodox opinion was a dangerous matter in those days in the Land of the Saints.

Yes, a dangerous matter—so dangerous that even the most saintly dared only whisper their religious opinions with bated breath, lest something which fell from their lips might be misconstrued and lead to a swift retri-

English Stock Company Ends its Ten  
Weeks Season Here Next Week

Have Made Many Friends in Paducah—  
Good Business Done by the  
Theaters.

DRAMATIC NOTES OF INTEREST

The English Stock company will  
close its ten weeks' engagement at  
The Kentucky next Saturday, July  
19th. The announcement is made to-  
day. Manager English has run his  
season, and while he would doubtless  
have kept open longer had business  
justified it, the venture has proven a  
failure financially, as there are not  
enough theatre-goers in Paducah, it  
seems, to support two companies of  
summer stock.

Mr. True S. James, the director and  
leading man, has put on only the first  
class plays, and the performances have  
been of exceptional merit, especially  
when it is considered that the plays,  
many of them classics in the profes-  
sion, were put on with only three re-  
hearsals. His company is a most cap-  
able one, and has given satisfaction  
since it opened in May. The theatre  
is to be given an overhauling and  
thoroughly touched up between now  
and the regular season, which begins  
in September. Manager English is  
not discouraged over his first experi-  
ence with the summer stock, and an-  
nounces that he will try it again next  
summer.

"UNCLE JOSH WHITCOMB."

A play that needs no introduction to  
the public. It merits are too well es-  
tablished to need further commendation  
than to recall to mind the days  
when Denman Thompson starred in  
this famous old comedy. Who will  
forget the quaint old character of  
Uncle Josh, his visit to the city on a  
load of pumpkins and his many hum-  
orous experiences while there. And  
little Tot, too, the crossing sweeper,  
with her sad little story of a broken  
home, and a dying mother and a  
drunken father. Mr. James will ap-  
pear in the role of Uncle Josh, a role  
in which he has been seen many hun-  
dreds of times. Miss Stockton will be  
seen as little Tot. It may be said  
this role was played by Mr. James' wife,  
who is now dead, during the  
long run in Boston, and while Julia  
Wilson, the original "Tot," was very  
ill. Mr. James has given Miss Stock-  
ton the original song to sing in the  
death scene, which was used by both  
Miss Wilson and Mrs. James, entitled,  
"Mamma, Dear, the Angels Call  
Thee."

The rest of the company are well  
cast, and a better comedy bill could  
not have been chosen.

By apparent desire of patrons, the  
management at La Belle park present-  
ed a vaudiville bill yesterday and last  
night, giving four pleasing perform-  
ances to crowded houses.

Tonight the regular bill, "Ten  
Nights in a Bar Room," is the attrac-  
tion, and the previous excellent  
presentation insures a good perform-  
ance.

On Monday night a roaring comedy,  
"Too Much Jones," will be the offer-  
ing. This is a play adapted from one  
of the greatest French successes, and  
has made a great hit in New York and  
other eastern cities. There will be  
new specialties by Little Garna,  
Miss Phelps and Mr. Parker, while  
the steady favorite, Mr. Howard,  
will be retained on the bill.

"Camille" is at present the bill at  
The Kentucky and is one of the  
strongest attractions yet offered by  
Manager English. The work of the  
company is excellent, and the audi-  
ences at the two performances Thurs-  
day and Friday night were very gen-  
erous in their praises of it. Yesterday

afternoon there was one of the largest  
matinees of the season to witness "The  
Bells."

Miss Regina Merritt, a Paducah  
girl who has been with Murray  
and Mack and has a fine voice of great  
volume, made her first appearance be-  
fore a home audience in coon songs.  
She was well received. Tonight "Cam-  
ille" will be given for the last time.

Mr. William Malone, formerly man-  
ager of La Belle park, will have out a  
company on the road the coming sea-  
son. He recently resigned as stage  
manager of The Kentucky on account  
of ill health, and will as soon as the  
season opens start to play one and  
three nights stands. Both Mr. Malone  
and his wife who is known on the  
stage as Miss Edna Farrell are splen-  
did artists, and will make a success,  
it is hoped.

Miss Marie La Tour has resigned  
her position with the La Belle park  
stock, and returns to Chicago in a day  
or two.

**HEAT PROSTRATION**  
Teamster Graham Fell Unconscious  
From His Wagon.

He Rallied Late in the Evening, How-  
ever, and Will Probably Recover.

A teamster named John Graham, of  
309 South Second street, met with a  
serious accident yesterday morning  
while hauling timber on the Cairo  
road.

He and his father were going out  
the Cairo road to secure wagon loads  
of timber to be used in the construc-  
tion of the new railroad. The young-  
er man drove in front and about twelve  
miles out from the city was overcome  
by heat and fell from the wagon,  
striking on his head. A large hole was  
knocked in his cranium and his jaw  
was badly bruised. He was picked  
up by his father and brought to the  
city where medical treatment was  
administered. He was then taken  
home, where he was resting easy this  
morning. Dr. Foster dressed the in-  
jury. Graham fell about nine o'clock  
in the morning and remained uncon-  
scious until he was brought into the  
city about 2 o'clock in the afternoon.

**ILLINOIS CENTRAL

Mr. T. C. Martin, the day operator  
at the local yardmaster's office of  
the I. C., is ill today, and not able  
to be on duty. His position is being  
filled by Mr. C. O. Griffin, formerly  
operator in that office, but now engaged  
in the grocery business.

**WILL MARRY MONDAY.**
